PROJECTS

Analyzing Covid-19 Using R [🔗](#) | R programming

05 2023

- I collaborated with my team to analyze a COVID-19 dataset to identify trends and insights for informing public health decisions..

Student health report [🔗](#) | Power BI

08 2022

- I created an interactive dashboard to monitor university students' mental health, enabling visualization of key indicators to provide insights for educators and counselors..

AI Tools [🔗](#) | HTML, CSS, JS

05 2023

- I developed a webpage showcasing AI technologies that enhance everyday human necessities by providing practical solutions to common challenges.

INTERNSHIP

Indo-Euro Organization [🔗](#)

02 2024 – 05 2024

Data Analyst

India

- During my 2024 internship at Indo-Euro Synchronization and Skill Up, I enhanced my technical expertise by working with Excel Macros, Power BI, and SQL for data-driven solutions.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, NoSQL, R

Developer Tools: VS Code, Eclipse, Thonny, Figma

Technologies/Frameworks: GitHub, Git, MongoDB, Power BI

EXTRACURRICULAR

Connekt!

03 2024 – 03 2024

Event Organizer

Nambur

- Connekt! was a dynamic workshop co-organized by me and my peers, aimed at enhancing communication skills among our juniors, fostering their personal and professional growth.

Association for Computing Machinery

03 2024 – 03 2024

Member-Volunteer

Nambur

- I volunteered for 'Spardha,' a technical event designed to engage students. The event combined learning and fun, fostering a collaborative environment.
